As seniors in college, we were struck with the fact that in the coming year there would be zero staff people assigned to Northeast Ohio. This area with over 180,000 students would be left alone, stranded and unattended by the leadership that the students so desperately needed.

Little did we know the plans that God had for Northeast Ohio! We are so excited that there is another couple that has followed God's leading to direct our team.

Brian & Jenny Metzger have moved from Ohio State University to the Cleveland area and are already serving on several campuses. They have served at Ohio State for over 10 years, bringing much wisdom and ministry experience to our team! We are blessed to have them here, available to direct and train us when we report.

Another way that Brian and Jenny are helping to revitalize the area of NE Ohio is by recruiting staff to come and serve with us. Recently we have had the opportunity to cast vision for Cleveland specifically to 3 people who are praying and discerning where God would have them invest their talents in ministry.

Jared Murlin attended Ohio State where he was discipled by Brian and has spent the last year on STINT overseas in Slovenia. He has a heart for serving in a city ministry.

Hung Lu and Jennie Stewart are considering Cleveland as a couple. Hung has served on the Chicago Metro team and Jennie overseas in Slovenia for the past year.

#### Prayer Requests:

- That these three would take the step of faith to join our team in Northeast Ohio.
- That God would draw even more staff to see the need for our area and staff would have willing hearts to go where He calls them.
- That we would continue to make headway in our support so we can report to campus and begin working with students.
